

## Uploading exams to Blackboard using Respondus.

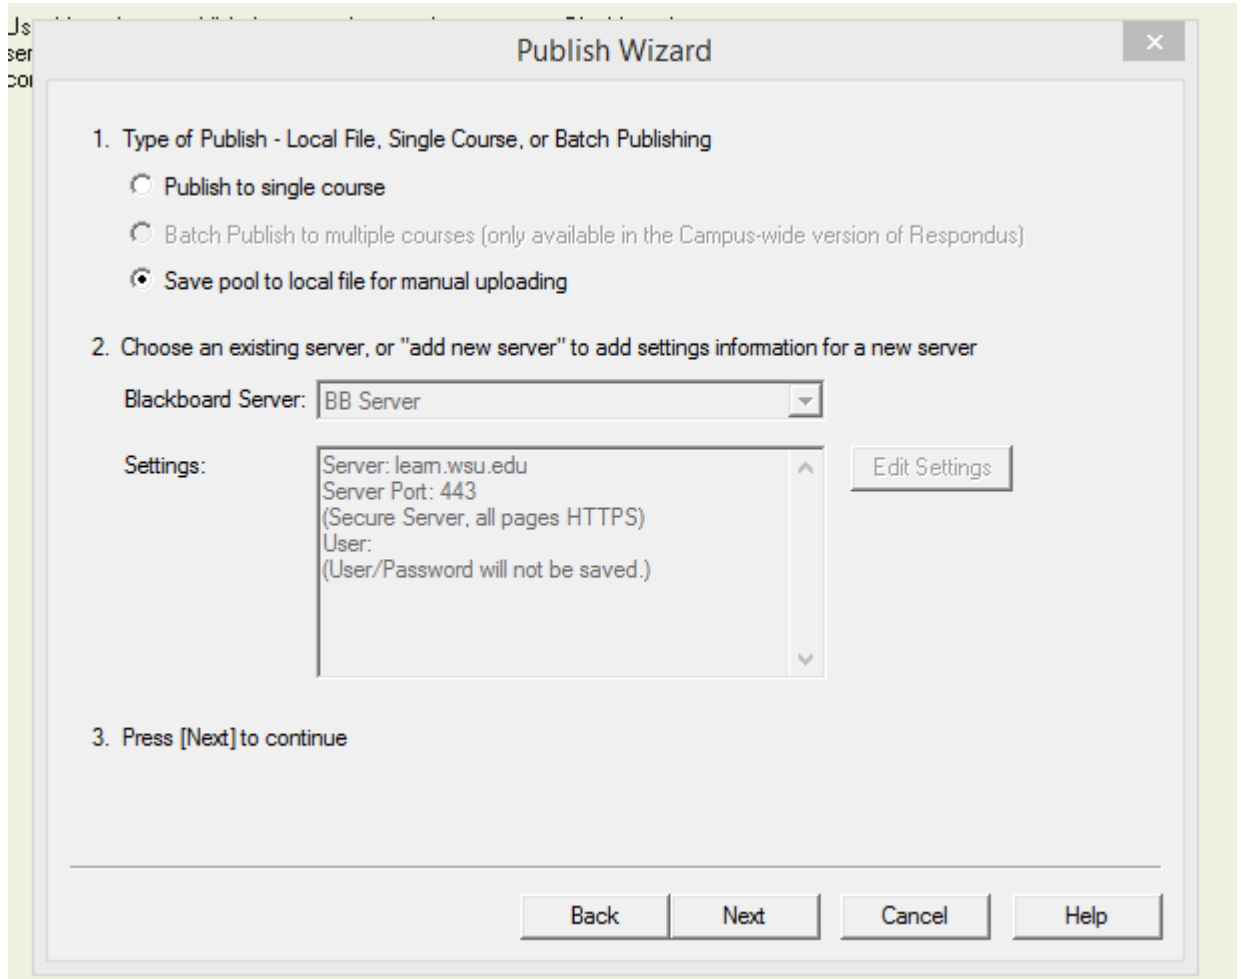

1. After the exam has been created in Respondus, navigate to the Preview & Publish tab.

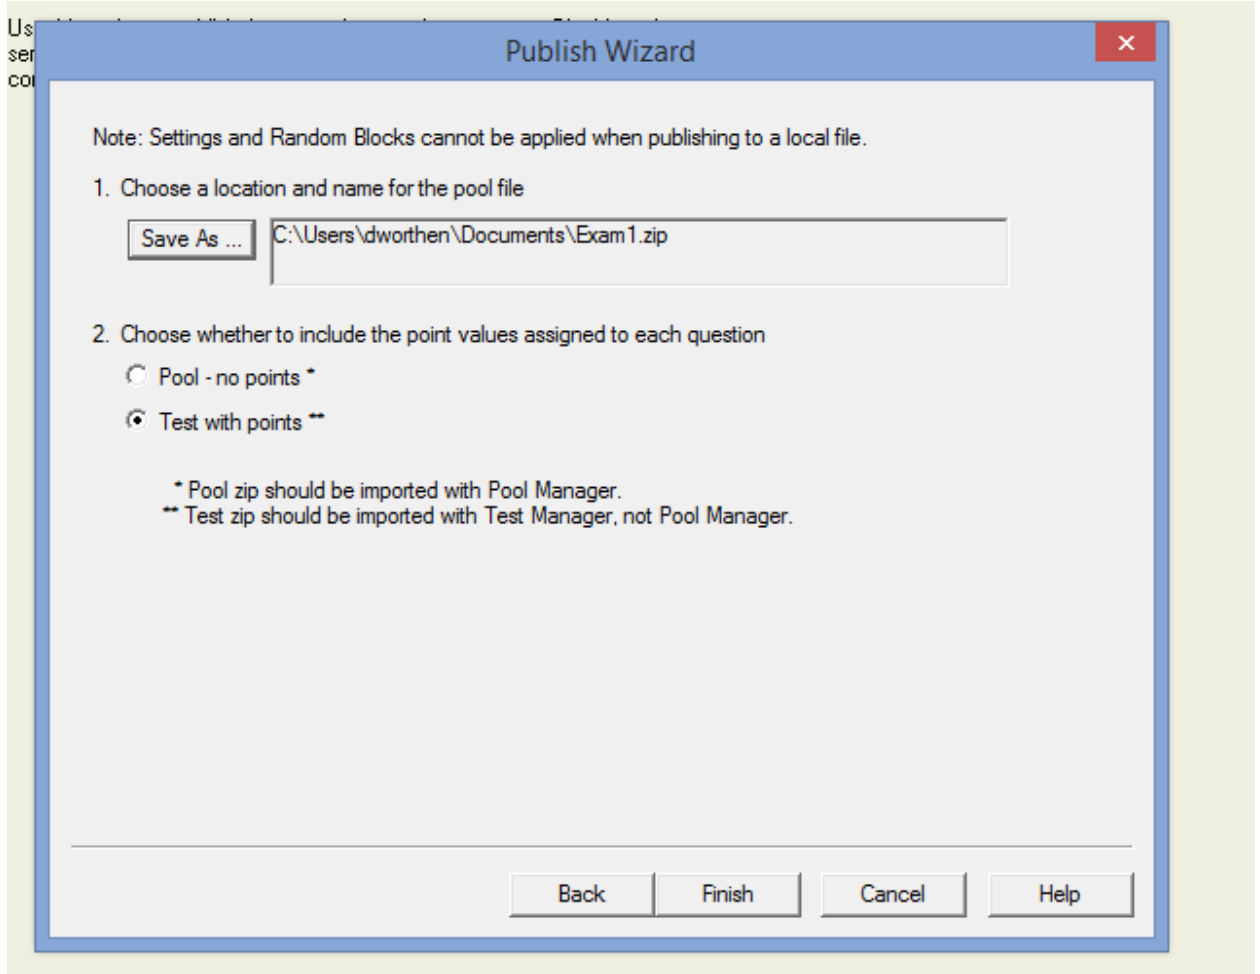

2. Select the Publish to Blackboard navigation link and then the Publish Wizard button.

3. Choose the "Save pool to local file for manual uploading" and select next.

4. Choose a location to save the zip file and select the export option. For this tutorial we will select the "Test with points" option. This option will create a new exam in Blackboard learn and will honor the points set per question when creating the test in respondus. Select finish to save the zip package.

5. Login to the Blackboard Learn course you wish to upload the test to and navigate to the Tests, Surveys, and Pools page located under the Course Tools section in the Course Menu:

▼ Needs Attent

6. Select Tests then Import Test.

## Tests

*Tests are a means of assessing student perform*

**Build Test**   **Import Test**

7. Select the zip package that was exported from respondus and click submit.

### Test Import

*Test Import adds an exported test to the set of tests. This is a useful way to reuse a test. Only test packages created by Blackboard Learn can be imported. Tests created by others, tests created at other institutions, and tests created with older versions of Blackboard Learn can be imported as long as they are in the proper format. [More Help](#)*

---

**TEST IMPORT**

*Click **Browse** to locate a file to import.*

Attach File

Selected File  File Name

*Click **Submit** to proceed. Click **Cancel** to go back.*

8. The uploaded test should now be listed in the Tests, Surveys, and Pools page.
